EXPERIENCE

Ebot AI IT Solutions Pvt. Ltd., Bangalore— Senior
Software Engineer - UI

FEBRUARY 2023 - continue

- Leading a team of junior UI developers
- Distributed main project into micro frontend, and added using module federation of webpack.
- Standardized the elements properties and definitions for the projects, like input and buttons width & height, custom layouts padding and margins.
- Optimized image and assets loading by uploading and reusing them from Minio.
- Successfully added different LLM configuration UI support, with data visualization.oper I am also handling a small group of junior developers under me.
- Optimized analytics project to plug and use with different projects internally.

Technologies :- JS, ReactJS, Redux, Webpack, SCSS

Front-end Developer/ UI Developer

SEPTEMBER 2019 - JANUARY 2023

- Created a new react project to dynamically define chatbot UI.
- To manage different projects with the same UI elements created a React Ui Library, with all basic definitions and styles.
- Updated webpack from v3-v4 then from v4-v5
- Updated Bootstrap to V5, and jQuery to 3.6.1 from 2.x version
- Worked with the team to add accessibility and lang support on chatbot.
- Created analytics/dashboard UI using chartJS for jquery project and react-chartJS2 for react project.
- Improved the lighthouse score from below 60% to >90% for chatbots

Technologies :- JS, jQuery, ejs, ReactJS, Bootstrap, Webpack, SCSS

Airtory Interactive, Bangalore— *Software Engineer(Front-end Developer)*

JUNE 2018 - AUGUST 2019
